

# AC 611 JF

## INTRO

Flexible Cloth for Belts  
 Grit Format: FEPA P  
 Available Grit Range: P60 ~ P600

## CONSTRUCTION

Cloth Type: Durable Cotton 100%  
 Bonding: Resin over Resin  
 Grain Type: Hybrid Semi-Friable Aluminum Oxide

Converted Materials: Rolls / Narrow Belts / Wide Belts  
 Maximum Width: 1650mm

## PRODUCTS' ADVANTAGE

- Resistant to heat and tears
- Extra flexibility
- Closer coat for high removal rate
- Semi-friability offers better cut and longer lifetime
- Smooth cloth surface for better surface quality

## APPLICATION

- Cloth strength holds wide belts and narrow belts in extra flexible belt operations
- Can bend in every direction to cover the most difficult surfaces
- Flexible belt operations on corners and round surfaces
- Belt grinding tools
